Dune and Jasper

DUE to popular demand, CW Products is excited to shared our newest product releases of Dune and Jasper colour matched pelmets, guides, bottom bars and accessories.

At CW Products we pride ourselves on having an extensive and modern range of products and colour options to help your customers find the right solutions and give your business a competitive edge.

Available now to order with our 42mm range of made to measure roller shutters or as full length parts and components.

Dune and Jasper join other popular colour match shades in our extensive and responsive range - including Monument, Shale Grey, Surfmist and Woodland Grey.

For more information contact your local CW Products representative for more information or call +61 8 8341 0120

Riveting News

MORE ATTRACTIVE finishes on CW Products roller shutters, pelmets and surrounds are one of our latest product improvements.

We have introduced colour matched rivets to provide a sleek and improved finish on all pelmets and sideframes.

We have also standardised rivet sizes, moving from 4-3 to 5-4 across side frames and pelmets - which has the added bonus of giving our pelmets extra durability and strength.
